

CATV 860 MHz Optical Receiver Module

1. Product profile

1.1 General description

High dynamic range optical receiver amplifier module is in a standard SOT115U package where the 0.9mm buffered fiber has an FC/APC or SC/APC connector. The amplifier supply voltage is 24 V (DC). The modules have a single mode optical input suitable for 1290 nm to 1600 nm wavelengths, output having a characteristic impedance of 75Ω.

CAUTION

This device is sensitive to Electro Static Discharge (ESD).. Therefore care should be taken during transport and handling.
