CATV 1000 MHz Optical Receiver Amplifier Module

1. Product profile

1.1 General description

High dynamic range optical receiver amplifier module is in a standard SOT115T package where the 0.9mm buffered fiber has an FC/APC or SC/APC connector. The amplifier supply voltage is 24 V (DC).The modules have a single mode optical input suitable for 1290 nm to1600 nm wavelengths, using a front push-pull amplifier and a cascaded power doubler MMIC with GaAs Technology from USA .adding ESD and surge protective devices.a terminal to monitor the photo diode current and an electrical output having a characteristic impedance of 75Ω.

CAUTION

This device is sensitive to Electro Static Discharge (ESD)..
Therefore care should be taken during transport and handling.
